School Gyms to Reopen for Community Physical Activity and Sports

Basketball Nova Scotia is thrilled with the announcement to allow community access to our schools. The benefits of sport are crucial parts of our physical, mental and social well-being, key factors in helping us all cope with COVID-19. The majority of our groups use our schools across the province to facilitate programming and this will allow our clubs and leagues to get back on court safely.

Thank you to Minister Zach Churchill, Volley, Soccer and Sport Nova Scotia and all those who helped push this through. Let's work as a community to get back on court safely!
